

K-love is a huge blessing in my life and my families. K-love is the only safe station I feel I can let my children listen to without worrying about the garbage they might hear on other stations. K-love provides me with a great deal of spiritual help and information on a daily basis. In my neighborhood alone I know of 4 or 5 families that listen to K-love as well. It would be a huge injustice to remove this station from our area. K-love is more than just great music, it provides encouraging and life changing messages to all who listen. That to me is priceless in this world we live in today. With all the garbage on the airways today, K-love is one of the good, clean, and safe havens left. Don't make a huge mistake here. Thanks, Jeff
